

Serving Children and Reaching Families

Motivating, Inspiring and Changing the Lives of Children...One Family at a Time

Serving Children and Reaching Families, LLC (SCARF) is a comprehensive behavioral health and substance abuse Community-based service provider. SCARF offers outpatient services at our Kissimmee office, at patient's home and schools in the Osceola, Orange, Seminole, and Polk Counties within the state of Florida.

Our population is made up of rural and urban culture. And great variation exists within the counties we serve. Because of this, SCARF has an integrated approach to treatment, which

emphasizes the uniqueness of the family within the different communities.

“We use Evidence-Based Practices (EBP) or Promising Practices (PP) interventions with specific problems and/or disorder.”

Our target population consists of children, adolescents and adults, who may be part of the Department of Children and Family Agency; adolescents who are in the Department of the Juvenile Justice System; and children who are at risk of being removed from their parents.

We are also dedicated to meeting the needs of children and youth who struggle in school, patients with emotional and behavioral problems, adolescents who struggle with substance abuse and adults who struggle with parenting their children.
